

PRODUCT DESCRIPTION

BCN01 – Food Culture

Description	Lactic acid food culture – a processing aid to control <i>Listeria spp.</i>
Packaging data for cultivation kit to Cultivator Pro	Fermented culture is packed in a PE pouch sealed with PP lid. All packaging materials are food grade and assembled in aseptic environments (ISO8 facilities).
Composition	CULTURE: Lactic acid culture BCN01 CULTIVATION MEDIUM: Sterilized medium (glucose, yeast extract, vegetable peptone).
Direction for use	To be applied to food or environmental settings. Application is typically performed with sprayers and misters or added directly to suspensions.
Conformity and intended use pre-fermentation in Cultivator Pro	Intended for <i>Listeria spp.</i> control and management. Specifically for use against <i>Listeria monocytogenes</i> but will have an effect against <i>Listeria species</i> in general. Effect is subject to further estimation upon knowledge of the user's food products. Use as a processing aid. The product will have a brown semi-transparent eggshell color after fermentation. All technical advice is provided to the best of our knowledge. However, we do not accept any liability for improper application.

Microbiological specifications

Microbiological quality control – standard values and methods
1. Culture:

Lactic acid bacteria	> 1.0E+9 cfu/g	ISO 15214
Anaerobic bacterial spores	< 100 cfu/g	ISO 4833
Aerobic bacterial spores	< 100 cfu/g	ISO 4833
Yeasts	< 100 cfu/g	NMKL 98
Mould spores	< 100 cfu/g	NMKL 98
Enterobacteriaceae	< 100 cfu/g	ISO 21528-2
Enterococcus	< 1000 cfu/g	NMKL 68
Coagulase positive staphylococci	< 10 cfu/g	ISO 6888-1
Presumptive <i>Bacillus cereus</i>	< 100 cfu/g	ISO 7932
Salmonella	n.d. in 25 g	NMKL 71

PRODUCT DESCRIPTION

BCN01 – Food Culture

Shelf life and storage	For non-fermented cultures: 12 weeks from date of production at 2-8 °C After fermentation in Cultivator Pro®: 14 days at 2-8 °C
Safety information	MSDS (Material Safety Data Sheet) is available upon request.
Declarations	BCN01 is a processing aid as per EC 1333/2008. It is not a food additive nor is it probiotic. It is vegan and can be used in ecological foods. In case of labeling, label as: “lactic acid culture”, “biopreserved with lactic acid culture”, “bioprotected with lactic acid culture” Or similar. The taxa or genus can be added for additional information.
Allergens	All materials are free of the following components and their derivatives: Celery, cereal, gluten, crustacean, dairy, egg, fish, lupine, mollusc, mustard, peanut, sesame, soy, sulphite and tree nut. Harel and kosher certificates may be provided upon request.
GMO Status	BCN01 from BioCulture Nordic does not consist of, nor contain, nor is produced from genetically modified organism (GMO) in accordance with Regulation (EC) No. 1829/2003 and Regulation (EC) 1830/2003 of the European Parliament and the Council of 22 September 2003. The strain is isolated from a natural source.
Liability	The information provided herein is accurate and reliable to the best of our knowledge and belief and is presented in good faith. We do not imply or infer any guarantee against patent infringement. We also believe that the mentioned product(s) do not infringe on the intellectual property rights of any third party. These strains have been selected for their technological qualities. They have a long history of safe use in food where they can be used as ingredients. Label food regulations should always be consulted concerning the status of this product, as legislation regarding its use in food may vary from country to country.
Service	Please contact BioCulture Nordic for guidance and instructions for your choice of culture and processing.
